Title: HCN-HNC Isomerization in Oscillating Fields

Authors: Hasan, K.T. Mushir UI (/jspui/browse?type=author&value=Hasan%2C+K.T.+Mushir+UI)

Keywords: Chemistry
Dynamics
HCN-HNC Isomerization
Transition State
Nuclear Dynamics
Electronic Structure
Oscillating Fields

Issue Date: 17-Jul-2017

Publisher: IISER-M

Abstract: The present work deals with the study of change in dynamics observed for a double well potential (HCN-HNC isomerization) in the Kramers-Henneberger frame under the influence of periodic driving. This change in dynamics gives us an insight into the chemistry of barriers in reaction pathways, namely the transition state. Along with the nuclear dynamics, preliminary investigations has also been performed on the electronic structure of HCN under the influence of oscillating fields.
