Title:	Geometric group theory and hyperbolic geometry: Recent contributions from Indian mathematicians
Authors:	Sardar, Pranab (/jspui/browse?type=author&value=Sardar%2C+Pranab)
Keywords:	Hyperbolic Geometry Intermingling
Issue Date:	2019
Publisher:	Springer Link
Citation:	Indian Journal of Pure and Applied Mathematics, 50(3),pp.767-777.
Abstract:	Geometric group theory emerged as a distinct branch of mathematics through the seminal work of Gromov [25] in 1987 and since then it has been a very active area of research intermingling with many other fields of mathematics. This paper is a survey of contributions made in the past decade in Geometric group theory by the Indian mathematicians.
