Title:	Further studies on two species of the moth genus <i>Paralebeda Aurivillius</i> (Lepidoptera: Bombycoidea: Lasiocampidae) from northwestern India
Authors:	Saini, S. (/jspui/browse?type=author&value=Saini%2C+S.)
Keywords:	Genitalia Femorata Lasiocampidae Paralebeda Plagifera
Issue Date:	2019
Publisher:	Wildlife Information Liaison Development
Citation:	Journal of Threatened Taxa, 11(12), PP.14593-14598.
Abstract:	The known Indian species of the moth genus <i>Paralebeda Aurivillius</i> namely <i>femorata</i> (Menetries) and the type species <i>plagifera</i> (Walker) have been taxonomically treated. The external morphological characters particularly species specific features such as wing venation and genitalic characters have been studied and illustrated. The genus diagnosis has been updated and a key has also been formulated.
Description:	Only IISERM authors are available in the record.
