Title:	Compact objects and Black Holes: Nobel Prize for Physics 2020
Authors:	Bagla, J.S. (/jspui/browse?type=author&value=Bagla%2C+J.S.)
Keywords:	Black Holes Nobel Prize for Physics 2020
Issue Date:	2020
Publisher:	Resonance
Citation:	Resonance 25, 1659 (2020)
Abstract:	The Nobel Prize in Physics 2020 has been divided, one half awarded to Roger Penrose for the discovery that black hole formation is a robust prediction of the general theory of relativity. and the other half jointly to Reinhard Genzel and Andrea Ghez for the discovery of a supermassive compact object at the centre of our galaxy. Here we describe their work and put it in historical context and discuss specific advances that have been rewarded.
