Abstract:	This chapter is a continuation of the previous chapter on Divisibility Property. In the first three sections, we deal with groups of order $p^7$ [41], groups of coclass 2 [35] and 2-groups with a given coclass [26]. Section 5.4 deals with $p^2$ -abelian $p$ -central $p$ -groups [121]. Finally, in Sect. 5.5, results with certain specific conditions on groups are presented [30, 34, 128].
