Keywords:	Probability theory Undergraduate Fascination

Publisher:	Springer Link
Citation:	Resonance, 24(06), pp. 681-684.
Abstract:	The author did not learn probability theory properly when it was taught to him as an undergraduate. However, now that he has to teach, it has become a fascination. The problem stated below was given to second year students of the IISER BS-MS programme as an examination question; they answered it in interesting ways. An earlier article in Resonance [1] also talks about martingales.
