Title:	z-Classes in Finite p-Groups
Authors:	Arora, Shivam (/jspui/browse?type=author&value=Arora%2C+Shivam)
Keywords:	Mathematics Groups
Issue Date:	3-Sep-2016
Publisher:	IISER-M
Abstract:	The aim of this thesis is to study z-classes in p-groups. Given a group $G$ , two elements $x, y \in G$ are said to be z-equivalent, if their centralizers are conjugate. Apart from its origin from dynamics of geometries, classifying z-classes in groups is of independent interest as well. In this thesis we have specifically studied z-classes in finite p-groups.
