| Abstract: | The 10th International Workshop on the CKM Unitarity Triangle took place at the University of Heidelberg on September 17th–21st, 2018. In this write-up, we summarize the material discussed at the workshop by the Working Group 7, which focused on latest experimental results and theoretical developments in the study of mixing and CP violation in the neutral D system, and of CP violation and decay properties of other charm mesons and baryons. |
