Title:	Corrigendum/Addendum to "Strengthening of columnar hexagonal phase of a room temperature discotic liquid crystalline material by using ferroelectric barium titanate nanoparticles" [J. Mol. Liq. 294 (2019) 111609]

Abstract:	In this Corrigendum/Addendum, we present correction to our published article "Strengthening of columnar hexagonal phase of a room temperature discotic liquid crystalline material by using ferroelectric barium titanate nanoparticles" [J. Mol. Liq. 294 (2019) 111609]. Correction include Table 1: Thermodynamic parameters for RTAQ and composites. The effect of correction on the DSC thermogram is negligible, hence the results and discussion, and the conclusion section remains unchanged. However, for the convenience of readers, we correlate the discussion on the basis of corrected values with the discussion of previously published work.
